Report for Oakey

This was a Valentine's Day themed rally, and a big thankyou must go to Gail Caddies for all of the decorations around the hall which really made it. This was the second time the club has been to Oakey Showground and I think it was a great venue with a very nice hall.

44 caravans attended the rally, with numbers down a little due to a few members not one hundred per cent fit, but I hope you will be back with us soon.

Some members started the day with their early morning walk, Card Making with Bev Green I think I saw about 10 ladies making cards so well done to you all. With no art teacher at this rally the art class was small. Some golfers did play but not enough to talk about.

Friday morning the members partaking in the Health and Wellbeing challenge came to weigh-in with Minnie and Di. The Sewing ladies all looked to be busy working away. The Crafty ladies always do more talking than anything else. Graham Barr looked after the Lawn Bowls in the afternoon with 22 members playing and Graham reported that everyone had a great time at the friendly Bowls Club. Friday night some of us played cards, others played board games, and, some went out for dinner to Oakey R.S.L. Club.

Saturday morning always the walkers out early, then morning tea followed by the club forum. COVID is still around and we must not forget to hand sanitize etc. no new updates in the purple folder, but thanks to Jenni Mc Gowan for keeping us up to date. This must be a first time where everyone signed the attendance book by Saturday morning. Rally Marshals did a great job, so thank you to Noel Jones and Keith Fletcher. No dump point at the showground however in Oakey at the corner of York and Lorrimer street there is a public dump point.

This rally had no first, second, or third timers but we did have an Award of 100 rallies for Murray and Jenni Mc Gowan. Jenni has been on the committee for 5 years, and, Murray has been a rally Marshall for may-be more than 5 years, so very well deserved.

Thanks to Ray Caddies and Barry and Wendy Gibson for the Bocce event and after a lot of play in the afternoon the runners-up were Bralma and Andy Hine while the winners for the second time were Robyn and Ivan Burdett. Well done to you all.

The nights entertainment was with Matthew Peters and his lovely wife Shanesia. A lot of dancing to celebrate Valentines Day. It was nice to see plenty of members on the dance floor having a great time.

Sunday morning after paying the treasurer and morning tea, the club forum was conducted by Olive who did another good job.

Next Rally is at **BLACKBUTT SHOWGROUND** on 5 to 10 of March. So, stay healthy, travel safe, and remember the Club Moto Fellowship on Wheels.

President Steve Langley.

ANNUAL GENERAL MEETING

QUEENSLAND CARAVAN CLUB INC

Nominations for a Committee Position – 2025/2026

Annual General Meeting 12th April 2025, Laidley Rally.

QCC members are urged to consider serving on the Committee of the Queensland Caravan Club Inc. The Club values your input and is happy to discuss any aspects of the positions as well as serving on the Committee. Without a Committee, QCC is unable to function and may fold. Should a Committee position be not for you, then why not consider the many other non-Committee jobs such as marshalling, raffle ticket sales, assisting the convener, flags custodian, carrying books for the library, introduction person, checking the amenities, helping with entertainment to list a few. The AGM is only a few weeks away – so please think about helping-out in 2025/26.

MEMBERS COVID AWARENESS

Updated Notice for Wanderer: 14.1.25

If you feel unwell you are urged to isolate and stay home as Covid-19 is still in the community. Authorities suggest anyone with cold or flu-like symptoms to stay at home and to wear masks in crowded public settings during the holidays as families are still gathering. Those experiencing mild symptoms are encouraged to self-isolate.

COVID-19 reminder to members:

- Check that your RATs are still within the date of expiry. They could give a false result if out of date
- Storage temperature is important, recommendation is between 2 to 30 degrees Celsius to work as intended
- Regular hand washing & sanitising, covering your mouth when coughing/sneezing remains a recommendation, as well as wearing a mask if unable to keep a distance when in crowded spaces. Be in well-ventilated rooms when possible.
- You are infectious for the first 2 days when symptoms appear.

DON'T BECOME COMPLACENT, COVID IS STILL AN ACTIVE INFECTIOUS VIRUS.

Please contact QCC secretary if you become unwell during or following a club rally. This information will remain confidential but will assist to inform members if others also report becoming infected.

HELLO FELLOW CARAVANERS

It's time to think about smoke alarms in caravans and motorhomes.

Smoke alarms are a vital safety feature for caravans and motorhomes as they can help detect fires early and give occupants time to escape.

Queensland Fire Department website [fire.qld.gov.au](https://www.fire.qld.gov.au) contains detailed information about the smoke alarm rules and you should refer to the Department's website, but, here is my take on the smoke alarm rules.

Smoke alarm requirements:-

- From 1 July 2024 (i.e. 2024 not 2025) all caravans and motorhomes whose registration in Queensland is commencing for the first time, or, where ownership is being transferred must have at least one working photoelectric smoke alarm installed on the ceiling;
- From 1 January 2027 all other Queensland registered caravans and motorhomes must have at least one working photoelectric smoke alarm installed on the ceiling; and
- It is recommended that where your caravan, motorhome, or mobile home is unregistered you should nevertheless have a working smoke alarm installed in it.

Smoke alarm placement:-

- At least one smoke alarm should be installed inside where the bed(s) is located; and
- If you sleep outside in the annex, a smoke alarm should be installed in the annex as well.

Smoke alarm type:-

- The smoke alarm must meet Australian Standard 3786-2014; and
- A photoelectric smoke alarm powered by a 10-year, non-removable battery is recommended.

Testing smoke alarms:-

- Hold down the button for five seconds to test the smoke alarm;
- If the alarm does not sound, you need to replace the battery; and
- If you replace the battery and the alarm still does not sound, you need a new smoke alarm.

Carbon monoxide alarms

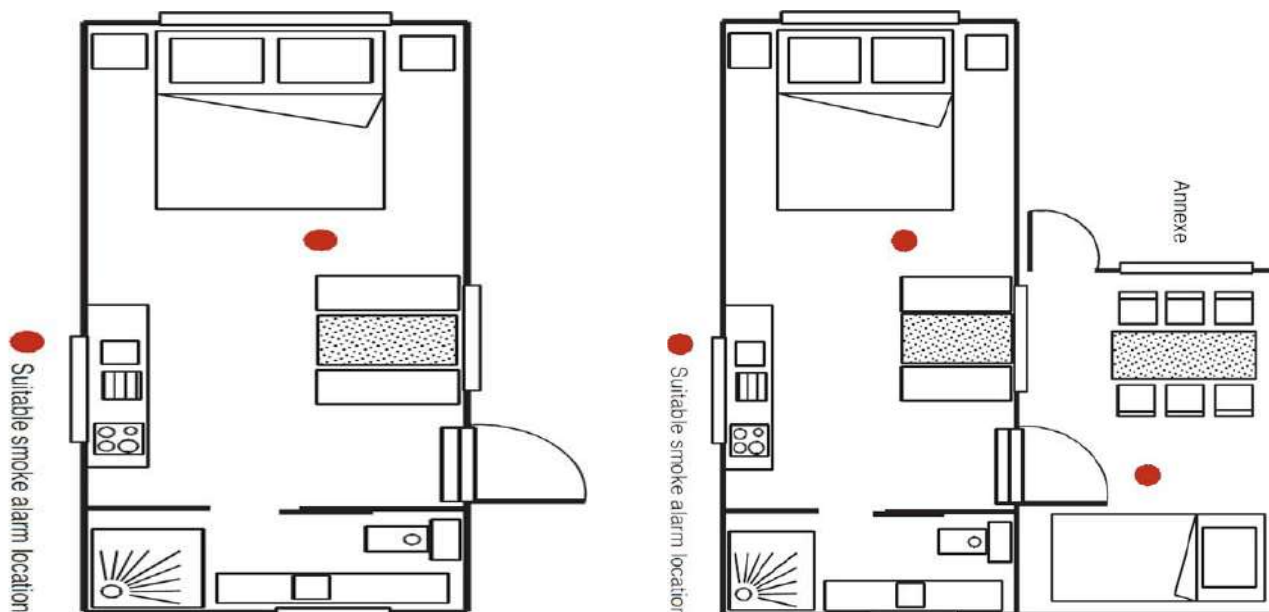

In addition to a smoke alarm, you should consider installing a carbon monoxide alarm to detect carbon monoxide from gas sources.

What is a photoelectric smoke alarm?

A photoelectric smoke alarm is an alarm that is more responsive to smoking, smoldering fires (such as a cigarette) while an ionization smoke alarm is an alarm that is more responsive to flaming fires i.e. where you can see the flame.

SUITABLE INSTALLATION LOCATIONS

You must have at least one working smoke alarm inside the van where the bed is, and an additional working smoke alarm in the annex if you sleep there.

SOME SAFETY TIPS

Make your next trip fire safe by following these steps:

GAS CYLINDERS

- Turn off all gas cylinders while the caravan is being towed or the mobile home engine is on.
- Keep gas cylinders outside unless a properly designed storage cupboard has been fitted.
- Turn off all appliances not being used before going to bed.
- Gas cylinders, pipes and fittings should be checked regularly, particularly after driving on country roads.

ESCAPE PLAN

- Prepare an escape plan in case of emergencies.
- Make sure you know where escape windows and hatches are and how they work - keep them and all doors clear of obstructions.

COOKING

- Never leave cooking unattended.

STORAGE

- Store all clothes and bedclothes well away from the kitchen area.
- Store all flammable liquids outside the caravan or mobile home.
- Ensure that the extension lead for connecting electricity supply to your caravan or motor home is in good condition and of suitable size for the current load. Damaged cords must be replaced immediately.

SMOKE ALARMS

- Fit photoelectric smoke alarms with a hush button. Caravan specific ones are available from hardware stores. A hush button will silence the alarm for a short period of time allowing the air to clear.
- Battery powered photoelectric smoke alarms can be installed by anyone with home handy person skills.

OTHER FIRE SAFETY EQUIPMENT

- Ensure you have a fire extinguisher and fire blanket. The extinguishers and fire blankets should be located near an exit where they are easily accessible and where escape is also an option.
- Make sure fire extinguishers are charged, inspected and regularly serviced.
- Check electrical appliances for frayed cords and any other visible damage, and dispose of appropriately.
- Test the safety switch before each trip.

If anybody needs advice or an inspection on your van don't hold back, come and get me.
